## **ACCC Alternative Payment Models in Cancer Care Workshop Friday, September 18, 2020**

New in 2020, you're invited to join ACCC and value-based care thought leaders as they explore why today's environment is a prime opportunity to participate in alternative payment models at the Alternative Payment Models in Cancer Care Workshop, 1:00 – 4:00 PM (EDT). The workshop and all didactic sessions will be led by Jessica Turgon and Purvi Bhatt of ECG Management Consultants.

**1:00 – 1:30 PM**

### **Overview of Alternative Payment Models**

While discussing the unique market drivers that are moving the industry from volume to value, we will outline oncology-specific trends—like rising drug costs—that are changing the delivery of cancer care. Then, we will illustrate the value-based continuum through different payment models that range from low to high financial risk, with a strong emphasis on oncology programs.

**1:30 – 2:00 PM**

### **Implementation: Value-Based Readiness Framework**

Evolving from fee-for-service to value-based care requires healthcare organizations to successfully navigate several key transitions. In this section, we will describe each transition category (i.e., domain) and will help you understand your likelihood for success under various levels of financial risk.

**2:00 – 2:05 PM**
