

An end-to-end financial navigation solution for healthcare providers

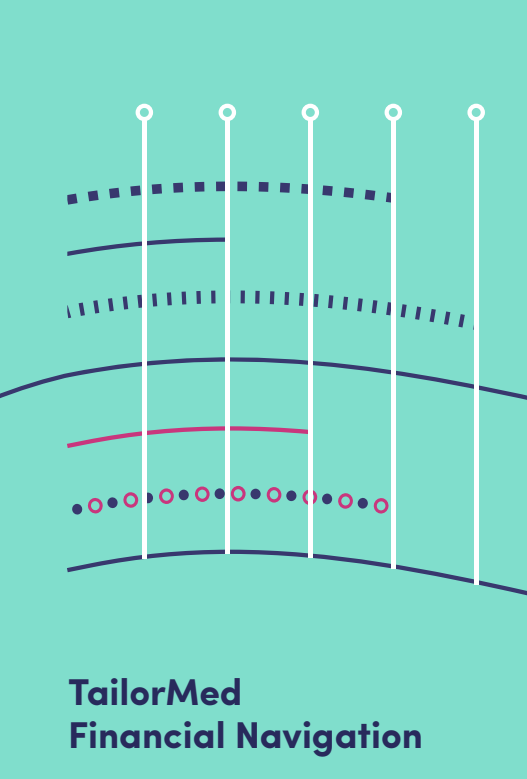

TailorMed offers the most comprehensive suite of product that automates the financial navigation and patient access processes from end to end while improving revenue collection.

Increase Revenue

Fight Financial Toxicity

TailorMed Financial Navigation

Automates your center's financial processes – from proactively identifying patients with the highest financial risk to offering and enrolling them to personalized funding opportunities.

TailorMed Financial Insights

Powerful analytics and reporting dashboard that tracks and measures the Key Performance Indicators (KPIs) and the ROI of your financial navigation processes.

TailorMed Pharmacy

Extends beyond the stage of enrolling patients to free/replacement drug programs, by ordering, tracking, and properly billing each drug order.
